EDUCATION

CORNELL TECH — **New York, NY**
Master of Engineering in Computer Science — **May 2027**
- Relevant Coursework: Optimization for AI, Product Studio, Networks and Markets, Deep Learning

YALE SCHOOL OF MANAGEMENT — **New Haven, CT**
Master of Business Administration (MBA) — **2026**
- Relevant Coursework: Product Management, Designing Business Experiments, Strategic Market Measurement

RICE UNIVERSITY — **Houston, TX**
Bachelor of Science in Computer Science; Minors: Data Science, Mathematics — **2021**

UWCSEA — **Singapore**
IB Diploma — **2017**

SKILLS

- **Technical**: Python, Java, Cloud Infrastructure, Distributed Systems, APIs, Capacity Management, Systems Integration
- **Program & Product**: Cross-Functional Execution, Dependency Management, Stakeholder Management, A/B Testing, Market Research, KPI Development

PROFESSIONAL EXPERIENCE

AKADEMIKA LAB SOLUTIONS — **2026 - Present**
Digital Transformation Consultant (Project-Based)
Electronics manufacturer of project kits of university labs
- Led customer discovery across six departments, identifying communication, inventory, and process-visibility gaps and expanding an employee-feedback engagement into a company-wide digital transformation initiative
- Defined requirements and led development of a custom ERP spanning sales, inventory, production, finance, administration, approvals, and reporting, integrating automation and AI-enabled workflows
- Redesigned operating processes and success metrics, reducing shipments from an average of 68 days late to zero late orders

JULIUS BAER — **Summer 2025**
Global Business Overview & Strategy Intern
- Designed framework decreasing new account opening time by ~65% (from 2 months to 3 weeks) across 5 divisions by interviewing 25 people to enable client growth strategy
- Worked in CEO's office to build automated competitive benchmarking dashboard estimating share-of-wallet across 15+ wealth firms (AUM $1T) to inform 2026 growth roadmap and effectively position product offerings

ORACLE — **2021 – 2024**
Software Engineer Oracle Cloud Infrastructure
Engineer in Virtual Machines Control Plane (New SKU) team, focusing on creating new virtual machine (VM) product offerings, revamping existing products, and boosting product acceleration
- Identified & executed 3 new projects worth ~$12M by collaborating with product managers and customers (TikTok & Uber) to translate customer insights into actionable specifications for new product development
- Translated user insights and on-call analytics into actionable engineering strategies, improving API success rates from 99.2% to 99.9% and enhancing customer experience
- Spearheaded overhaul of capacity monitoring system; cut incident detection time by 5 minutes, reducing downtime risk
- Streamlined and optimized new shape onboarding process for virtual machines by collaborating with technical partner teams and provided touchless integration to improve product delivery timelines by 2.5x
- Collaborated on a project to decouple CPU and memory reservations, freeing up 52k unused cpus, leading to capital expenditure savings of $26M

PROJECTS

YALE CENTER FOR CUSTOMER INSIGHTS — **Fall 2025**
Discovery Project for Northwell Health
Student project on market research of New York cardiac care market
- Designed a mixed-methods research program with 20 in-depth interviews, online ethnography, and a 1060-respondent survey to map the end-to-end cardiac care decision journey
- Built and tested behavioral hypotheses through A/B experiments, identifying messaging and experience levers that drove up to 22-percentage-point increases in provider selection intent across patient segments
